Soft Touch

BUILDER GEL

The material provides intense coverage, delivering a flawless, professional look thanks to its rich color and high pigmentation. Its medium viscosity makes it easy to work with—even with file-free techniques. Thanks to its moderate heat generation, it's comfortable to wear, so clients will love it too. It can be used in a single step for faster refills, or in two layers (as a base and a top layer) during building for the most perfect result.

Porcelain Pink is a soft milky pink shade that gives a feminine and modern look. It's elegant on its own, but also perfect as a base for French nails.

Peach Pirouette has a fresh, peachy tone that brings a light, summery feel—ideal for sparkly babyboomer designs.

Antique Rose features a gentle, elegant rosy hue with a silky shimmer that enhances the natural beauty of the nails, offering a classic yet modern choice.

GEL&LAC

The Tiffany Gel&Lac collection takes its name from the famous Tiffany glass: colorful yet with a glass-like translucent effect. This special feature makes them very flexible — on their own, they provide a delicate, airy color effect; applied over glittery shades, they add extra depth and shine; layered on other gel polishes, they create a new dimension; and for decoration, they offer creative possibilities.

A collection where the play of color and light comes to life, making every manicure truly special.

Sky's deep blue radiates elegance, Rose's soft rosy tone adds delicate femininity. Scarlet's bright red is passionate and striking, while Amber's warm shade represents timeless elegance. Together, they form a harmonious palette for a stylish look.

Chrome powders

With chrome powders, every movement turns into a sparkle: a mirror-like, dazzling effect that immediately catches the eye. Not only the final result amazes clients, but the creation process itself is a true experience. Gilded Mist evokes champagne elegance, Frozen Forest brings icy blue-silver mystery, Molten Bronze shines with golden luxury, while Rustic Charm recalls the warmth of brick red.

When covering the entire nail, after curing the gel polish for 30 seconds, rub in the chrome powder, then seal with two layers of Extra Top: cure the first layer for 10 seconds, the second for 1 minute.

BB Tip: After applying chrome powder, seal the edges or even the entire surface with a primer that is free of acids for perfect adhesion. To provide extra protection against chipping, you can also use a stone glue gel, such as Nail Art Glue gel, on the surface after applying the chrome powder but before you use the Top.

Nail Sticker

The season's decals include five self-adhesive and one water decal, with four of them being 3D stickers. The cheerful sunflowers, festive motifs, sparkling gold details, and clean, glossy patterns all offer a quick and striking solution. Whether you want to decorate an entire set or just add small exciting details to the nails, these decals are a perfect choice for any occasion.

Usage: They are easy to use — the self-adhesive decals can be applied directly from the sheet onto the nail surface and sealed with a top gel. The water decals should be soaked for 10–15 seconds before removing them from the backing, and finally sealed with a top gel, possibly in two layers.

Mermaid Mirror Glitter Queen

The Mermaid Mirror family expands with a new shade that, like the previous chrome powders, gives a unique manicure with a special mirror effect and iridescent shine. It shows a different face on every base — on black, it shines with a strong, mermaid-fin-like sparkle, while on nude it provides a soft, fairytale-like glow to your nails, making endless possibilities hidden in a single powder.

The newly released shade is like a mysterious twilight glow, playing with golden and mysteriously purple light at the same time. The color creates a delicate yet stunning effect, as if the golden rays of the sunset meet the magic of the purple sky — turning every manicure fabulously unique.

Mermaid Mirror 3

The Glitter Queen family now shines with three more stunning shades: #9, a romantic and feminine rose-bronze tone; #10, a subtle elegance radiating lilac-silver hue; and #11, a bold peach color with a warm glow. Together or separately, they provide a truly queenly look.

The Glitter Queen collection is a treasure trove for decoration lovers. It features fine glitters, sparkling glitter powders, and various shaped flakes, most often shimmering circles and hexagons of different sizes. Thanks to its versatility, you can create any style with it — from clean, elegant nails to bold, extravagant looks.

Frosted Citrus

Hand and Foot Care

CREAM & PERFUME OIL

Three new scents, three different worlds — BrillBird's latest hand and body care products not only nourish the skin but also enchant the senses with their fragrances. All three scents are available as creams in 50 ml and 250 ml sizes, as well as in perfume oil (cuticle oil) form, so your favorite aroma can always be with you.

Frosted Citrus

Frosted Citrus is like a citrus fruit frozen in ice meeting a sweet, honeyed dessert in a single fragrance. The freshness of bergamot, lemon verbena, and lemon balm energizes you, while the soft sweetness of honey gently blends into the composition. In the background, coriander, eucalyptus, and musk bring earthier, deeper notes that create a perfect balance between fresh and sweet accords. This scent is both light and refined, making it an ideal choice for everyday use when you want to be wrapped in freshness and natural elegance.

Espressoul

Espressoul is a true delight for those who can't resist the intoxicating scent of coffee and chocolate. At first, a bittersweet harmony of chocolate, coconut, and almond unfolds, enriched by the honey and caramel sweetness in the heart notes. The real magic of the fragrance lies in the base notes, where the aroma of freshly roasted coffee meets the tempting warmth of sugar. This scent is like a little indulgent coffee break every time you use it — sweet, lush, and irresistibly cozy.

Espressoul

Wicked Heaven

Wicked Heaven captures the essence of femininity, where fruity accords playfully blend with the deep, sweet notes of dark chocolate. The velvety softness of honey and apricot enriches the composition, while the warm embrace of vanilla provides a refined finish. This fragrance is both sensual and confident, special and alluring — a true heavenly experience with a touch of wildness.
